

FASTENation Inc. Introduces New Product

Clifton, NJ (February 8, 2011) *FASTENation, Inc.* a global distributor and custom converter of fastening solutions is proud to announce the addition of EZLEVEL table wedges to its extensive hospitality product line.

EZLEVEL wedges are stabilizing shims designed to steady the legs or feet of uneven pieces of furniture and appliances. They have countless uses around restaurants, offices and hotels. "With the addition of the EZLEVEL wedge to our product line, we will offer our customers a real solution to the everyday problem of unsteady tables, chairs and appliances." says Justin Ferdinand, Vice President of FASTENation Inc.

To address a wide variety of customer needs, EZLEVEL wedges are available in two versions; soft and hard. Soft EZLEVEL wedges can be trimmed to customize the fit for those small or odd sized spaces. Hard EZLEVEL wedges offer the ultimate in strength and durability for heavy furniture and appliances. Both versions are offered in black and clear. The small ridges on all EZLEVEL wedges prevent slipping when stacked together to fill larger gaps.

"I think our customers will see a real value in the EZLEVEL wedge. Anyone who has tried to steady a shaky table with a sugar packet or napkin will really appreciate a product designed especially for that task. After all, who doesn't want to make life a little bit easier?" says Owen Buhler, Sales Representative.

EZLEVEL wedges will be sold in packages of 25, 50, 100 and 250, with larger amounts available for custom orders. "By giving our customers a choice about the type of wedge, color *and* amount, we make it possible to customize orders for a number of different applications." says David Petak, Executive Vice President of FASTENation Inc.
